

Finished Basements

# Jim Butler Contracting

Turn your dungeon into a recreational paradise!

**The finished project reflects the personality of the client.**

This bar, which Jim Butler handcrafted from solid cherry, includes carefully placed built-in lighting to accent the fine cabinetry. The bar is the focal point of this basement, which Jim remodeled to include a home theater, guest room and guest bath.

**Custom Homes**

**Additions**

**Windows**

**Decks**

*"I had another builder quote me double what Jim Butler did this basement for, and I don't think that anyone could have created a room that we could enjoy more! I like to entertain clients and friends down here, while my wife likes to relax in the home theater. Our overnight guests enjoy having a space, with their own bathroom, where they can feel at home. Everyone who has seen this is so impressed."*
